

YOUR BOARD OF GOVERNORS

Barbara Grisenthwaite receives a Commandant's Commendation from CEO Stan Verran

WHAT'S UP IN OPS

June has been quite busy for Operations in keeping up with the normal summer seasonal work and requirements. We have had four major proposals to complete with a very narrow window of submission dates. The proposals will hopefully secure our position at the Victoria Conference Centre for an additional 5 years as well as provide new business at three different work sites. Campbell River has picked up work at the BC Ferries terminal for alarm response and for providing static security for the Discovery Harbour Marina.

We are investigating adding training for Marine Security in compliance with Transport Canada regulations as well as extending the services for our Computer Lab. Commissionaires who would like refresher training or need basic training on computers are asked to contact Dusty Miller for further information.

The Board of Governors held their Annual General Meeting on Wednesday 24 June as required by the Societies Act of British Columbia. As noted on page 1, Capt (N) Jim Steele joined the Board and there were no retirements this year.

The Board is now comprised of 11 permanent members, all of whom are unpaid volunteers. They are responsible for the overall health and welfare of the Division and provide guidance and assistance to the CEO. This photo also includes retired or Honorary Governors and the CEO/Commandant.

Capt (N) Yves Trottier was confirmed as the Chair for another year and Col Merv Lougher-Goodey was confirmed as the Vice Chair.
